Hi again,

I just left you another voice mail; are you only going to need Della and myself or are you also going to need Kate Corbett and Peter Piro on Lab# [REDACTED] I know that you have had contact with Della and I am not sure what your arrangements are with her but if you can give me an idea of time you expect you will need us. Kate, Peter, and I do have children that we are expected to pick up so if you can give me a ball park idea it would be great so that we can make arrangements.

Hi Nicole,

Sorry for not getting back to your message. I can definitely put you on call. As of now the case is a go. You and Della Saunders are the most important chemists as the cert. you guys produced is from a hand to hand transaction that is my strongest charge. The case is from '06 so it is unlikely I can get a continuance. I will touch base with you this afternoon and let you know if there have been any developments.

Good Morning,

I did receive your summons and I left you a voice message on the 19<sup>th</sup>. I wanted to discuss the status of the case as you have several chemists summoned for this. As you can imagine we are very busy at the lab and our time is very tight as we sometimes have 3-4 summons for the same day; we are requesting to be on call and if you can please let us know of any changes or if while on call you don't need us.

Thank you,

Nicole E. Medina
